DATA SNAPSHOT: SOCIAL DRIVERS OF HEALTH

Social Drivers of Health (SDoH), also known as Social Determinants of Health, refer to the conditions in environments where people are born, live, learn, work, play, worship, and age that influence their health risks and overall wellbeing. Some of these drivers include access to safe housing, nutritious food, parks and green space, and even broadband and internet connectivity, all of which impact the ability of and opportunity for Californians to live their healthiest lives.
