DATA SNAPSHOT: SOCIAL DRIVERS OF HEALTH

Social Drivers of Health (SDoH), also known as Social Determinants of Health, refer to the conditions in environments where people are born, live, learn, work, play, worship, and age that influence their health risks and overall wellbeing. Some of these drivers include access to safe housing, nutritious food, parks and green space, and even broadband and internet connectivity, all of which impact the ability of and opportunity for Californians to live their healthiest lives.

About ITUP

ITUP is an independent, nonprofit, health policy institute that has been a central voice in the California health landscape for more than two decades. ITUP serves as a trusted expert, grounded in statewide and regional connections with a network of policymakers, health care leaders, and stakeholders. The mission of ITUP is to promote innovative and workable policy solutions that expand health care access and improve the health of all Californians. ITUP is generously supported by the following funders:

- California Community Foundation
- California Health Care Foundation
- The California Endowment
- The California Wellness Foundation
